The US companies involved and/or their US subcontractors are certified under the EU-US Data Privacy Framework (EU-US DPF).

In cases where no adequacy decision has been made by the European Commission (including US companies that are not certified under the EU-US DPF), we have agreed on other suitable safeguards with the recipients of the data in accordance with Art. 44 ff. GDPR. Unless otherwise specified, these are standard contractual clauses of the EU Commission in accordance with Implementing Decision (EU) 2021/914 of 4 June 2021. You can view a copy of these standard contractual clauses at <https://eur-lex.europa.eu/legal-content/DE/TXT/HTML/?uri=CELEX:32021D0914&from=DE>.

(3) LinkedIn

LinkedIn is a social network operated by LinkedIn Ireland Unlimited Company, Wilton Place, Dublin 2, Ireland, which enables the creation of private and professional profiles of natural persons and company profiles. Users can maintain their existing contacts and make new ones within the social network. Companies and other organizations can create profiles on which photos and other company information can be uploaded in order to present themselves as employers and recruit employees. Other LinkedIn users have access to this information and can write their own articles and share this content with others. The focus of the network is on professional exchange on specialist topics with people who have the same professional interests.

When you use or visit the network, LinkedIn automatically collects data from users or visitors during their use or visit, such as their user's name, job title and IP address. This is done using various tracking technologies. LinkedIn provides information, offers and recommendations based on the data collected in this way, among other things.

We collect your data via our company profile solely for the purpose of enabling communication and interaction with us. This collection generally includes your name, message content, comment content and the profile information you have made 'public'.

If you as a user have given your consent to data processing to the respective social network provider, the legal basis for processing is Art. 6 para. 1 a, Art. 7 GDPR.

Due to the fact that the actual data processing is carried out by the social network provider, our access to your data is limited. Only the social network provider is authorized to access your data in full. For this reason, only the provider can take and implement appropriate measures to fulfil your user rights (request for information, deletion request, objection, etc.). The most effective way to assert your rights is therefore directly against the respective provider.

We are jointly responsible with LinkedIn for the personal content of our company profile. Data subject rights can be asserted against LinkedIn Inc. and against us.

We do not make any decisions regarding the data collected on the LinkedIn website using tracking technologies.

Further information about LinkedIn can be found at: <https://about.linkedin.com>.

The use of Google Fonts is based on your consent pursuant to Art. 6 para. 1 lit. a. DSGVO and § 25 para. 1 TTDSG.

We intend to transfer personal data to third countries outside the European Economic Area, in particular the USA. In cases where no adequacy decision of the European Commission exists (e.g. in the USA), we have agreed with the recipients of the data on other suitable guarantees within the meaning of Art. 44 ff. DSGVO. These are - unless otherwise stated - standard contractual clauses of the EU Commission pursuant to Implementing Decision (EU) 2021/914 of 4 June 2021. § 13 Data protection information for applicants

We process the data you send us in connection with your application to assess your suitability for the position (or other open positions in our company, if applicable) and to carry out the application process.

The legal basis for the processing of your personal data in this application process is primarily Section 26 of the German Federal Data Protection Act (BDSG) in the version applicable from 25 May 2018. According to this, the processing of data that is necessary in connection with the decision on the establishment of an employment relationship is permissible.

For online applications, we work with the applicant tool **Personio** from Personio SE & Co. KG, Seidlstraße 3, 80335 Munich, Germany. There you can register and share your application documents with us for the position that is relevant to you. The terms of use of Personio SE & Co. KG apply. Personio SE & Co. KG collects and processes your personal data on its own responsibility for the purpose of providing your user account for the applicant portal. In this regard, we refer you to the privacy policy Personio SE & Co. KG <https://harke.jobs.personio.de/privacy-policy?language=en>.

We will have online access to your applicant data if you grant us separate permission to do so as part of your application. The legal basis for this is Section 26 of the German Federal Data Protection Act (BDSG) in the version applicable from 25 May 2018 and Article 88(1) of the GDPR.

If the data is required for legal purposes after the application process has been completed, data processing may take place on the basis of the requirements of Art. 6 GDPR, in particular for the exercise of legitimate interests pursuant to Art. 6 para. 1 lit. f) GDPR. Our interest then lies in the assertion or defence of claims.

Data from applicants will be deleted after 6 months in the event of rejection. If you have consented to the further storage of your personal data, we will transfer your data to our applicant pool. The data will be deleted after two years.

If you are offered a position during the application process, the data will be transferred from the applicant data system to our personnel information system.

Your application data will be reviewed by the Human Resources department upon receipt of your application. Suitable applications will then be forwarded internally to the department managers responsible for the respective vacant position. The further procedure will then be coordinated. Within the company, only those persons who need your data for the proper execution of our application process have access to it.

The data will be processed exclusively in data centers in the Federal Republic of Germany. With regard to your data, you are of course also entitled to the rights specified in § 2 and § 6.
